

POSITION DESCRIPTION

Position title: Electronics Assembler

Reports to: Business Operations Manager

Summary:

This position is responsible for leading electronics testing and assembly of Avionics and Li-Ion battery flight units flown on rockets, missiles, aircraft, UAS and small satellites.

Responsibilities:

- Ability to build power, data I/O and RF cables.
- Ability to read electrical schematics and perform wiring and assembly
- Ability to make electrical measurements in circuits (voltage, resistance and current)
- J-STD-001 soldering on PCB with surface mount and thru hole component

Required Competencies:

Experience

- 2-10 years of experience in the following areas: Electronics assembly and test of flight units with power, data and RF cables.

Technical Skills

- Electrical/Electronics component theory and identification
- Soldering of PCB components (surface mount and thru hole)
- Electronics assembly of unit power, data and RF cables for flight units
- Computer (Microsoft Word, Excel, etc.)

Soft Skills

- Strong interpersonal skills

Education

- High School Diploma
A.S. degree in electronics or equivalent military training (military, etc.) preferred.

Desired Competencies:

Technical Skills

- Experience in electronics/electrical testing
- Microsoft Office (Word, Excel. etc.)
- Electronics Assembly

Certification

- Soldering, J-STD-001 with Space Addendum
- Electrical/Electronics training

Personal Requirements

- Do you have an entrepreneurial spirit and desire to be part of an innovative team that designs and manufactures state-of-the-art avionics, power and nano/micro satellites. Put your skills to work and develop innovative products for Space launch vehicles and small satellites.

ITAR Requirements

To conform to U.S. Government space technology export regulations, applicant must be a U.S. citizen, lawful permanent resident of the U.S., protected individual as defined by ITAR (22 CFR §120.15) or eligible to obtain the required authorizations from the U.S. Department of State. Learn more about the ITAR [here](#).
